

SHELBY F-150 SUPER SNAKE SPORT

Carroll Shelby was an early pioneer in high performance street trucks, beginning with his first production version almost 30 years ago. With the tremendous demand for the off-road focused Shelby F-150, fans of the classic Ford Lightning and our first generation Shelby F-150 Super Snake clamored for a new generation muscle truck from Shelby. To complement the well-received off-road focused Shelby F-150, Shelby American is offering a limited run of F-150 Super Snake Sport trucks, designed for performance street duty.

The Shelby F-150 Super Snake Sport features a Shelby-specific lowered suspension, up to 770 horsepower, throbbing exhaust note, custom wheels and new brake system. The exterior has a meaner and more aero look, while the interior has stylish Shelby amenities. The Shelby American team collaborated with Ford Performance and other partners to create the ultimate "super truck". During Shelby American tests, the truck went from 0-60 mph in just 3.45 seconds and reach 100 mph in a blazing fast 8.3 seconds.

The amazing Shelby super truck has an option for a naturally aspirated V8 powered pickup. The popular and limited mighty 770 horsepower V8, available including a well optioned Ford F-150.

The trucks come with a 3 year/36,000 mile warranty. The Shelby F-150 Super Snake Sport is available through select Shelby dealers across North America. A limited number will be built by select Shelby mod shops and distributors internationally. Contact Shelby Europe for more info.
